Wilbur, S Local area network management for distributed applications 100
Wong, K and Georganas, N D Strategies for optimal capacity allocations in DAMA satellite communication systems 26

TITLE

AALAN: advanced automation local area network **Liang, L-S** 195
Architectures for integrated service networks **Suda, T and Yemini, Y** 3
Computer based message services **Kirstein, P** 60
CSMA/CD-based protocol with dynamic segmentation **Chua, K C, Lye, K M and Ko, C C** 234
Design and validation of a transport protocol for local area networks **Teo, E H and Georganas, N D** 115
Design of integrated data/voice stations for a CSMA/CD LAN **Teo, E H, Mui, P and Georganas, N D** 287
Digital experience with electronic mail **Wicks, M** 108
Distribution lists in an X.400 message handling system **Maude, T I** 227
DTI support for OSI **Price, S** 74
Electronic mail — future directions **Holland, L** 71
Electronic mail in the UK academic community **Craigie, J** 105
Electronic mail synergy **Hollick, D** 91
Fast packet approach to integrated broadband networks **Gonet, P** 292
Homework for adults — the telecommuting solution **Blakemore, B** 67
Implementing and integrating office automation 256
Information technology at the National Computing Centre **Pritchard, J A T** 303
Integrating voice and data on SALAN: an experimental local area network **Gopalakrishnan, M and Patnaik, L M** 186
Lattice and ring array topologies using transputers **Brookes, G R, Manson, G A and Thompson, J A** 121
Local area network management for distributed applications **Wilbur, S** 100
Message Handling Standards **Malde, S** 78
Methodology for LAN design **Chianese, A and De Santo, M** 177
Multitasking across a LAN for communications switching **Purser, M** 135
Numerical solution to limited service polling models **Hayes, J F and Jalali-Nadushan, A** 171
Optimal exchange renewal strategies for local telephone networks **Hoang, H H** 15
Performance evaluation of an Ethernet network **Poo, G S and Ong, G H** 128
Performance monitor for a LAN **Madan, M P S** 282
Performance of multiple-access schemes for data communication **Rahman, M and Ahmed, R E** 241
Product supplier view of electronic mail and document standards **Campbell-Grant, I** 86
Reference model for a fast packet-based network **De Prycker, M** 299
Security in electronic mail **Price, W** 96
Strategies for optimal capacity allocations in DAMA satellite communication systems **Wong, K and Georganas, N** 26
Telecommunications network developments **Bray, R** 250
Unison project **Clark, P** 126
User-friendly communications software for a Unix workstation **Kirby, G H and Visvalingam, M** 9

SUBJECT

BOOK REVIEWS

Communication network protocols **Marsden, B** 317
Data communication networking devices **Held, G** 317
Digital communications switching **Ronayne, J** 201
Introducing data communications protocols **Hardy, P** 201
Introducing SNA **Gee, K** 33
Introduction to data communications and computer networks **Halsall, F** 143
Primality and cryptography **Kranakis, E** 318

CALENDAR

56, 112, 167, 223, 280, facing 336

CASE STUDY

Digital experience with electronic mail **Wicks, M** 108
Electronic mail in the UK academic community **Craigie, J** 105
Implementing and integrating office automation 256
Information technology at the National Computing Centre **Pritchard, J A T** 303

INTERFACE

Advanced message systems project launched 319
Anglo-Japanese technology agreement 149
BT joins ECMA 149
Computer security evaluation facility for GCHQ 208
Computer users' year book 149
Contracts awarded for European IT testing service 150
Coordinated introduction of ISDN 265
DHSS trial on pharmacy-data collection 209
Dialling to China 209
European scientific communications network 320
Higher wavelength for transatlantic cable 265
Insurance industry data networks advice organization 319
ISDN development agreement 266
IT in education 319
Joint packet switched services announced 320
Manufacturing automation protocol study 149
National certificate in software engineering 208
Nigerian telecommunications infrastructure 42
North Sea optical cable link 208
Optical fibre transmission upgrading 42
OSI study for Metropolitan Police 149
Packet switch stream connection approval 150
Project to develop high-speed transputer-based computer 209
Report on the benefits of voice messaging 42
Research networks organization 266
Satellite data communications evaluation 319
Satellite network for Explo 85 42
Skills shortage advisory group 209
Social security automation 266
Software data library 208
University launches IT centre 150
US-FRG bibliographic data exchange 320
£5M investment for electronic message services 150

LITERATURE REVIEW

48, 158, 214, 272, 326

MESSAGING

Computer based message services **Kirstein, P** 60
Digital experience with electronic mail **Wicks, M** 108
Distribution lists in an X.400 message handling system **Maude, T I** 227
DTI support for OSI **Price, S** 74
Electronic mail — future directions **Holland, L** 71
Electronic mail in the UK academic community **Craigie, J** 105
Electronic mail synergy **Hollick, D** 91
Homework for adults — the telecommuting solution **Blakemore, B** 67
Local area network management for distributed applications **Wilbur, S** 100
Message Handling Standards **Malde, S** 78
Product supplier view of electronic mail and document standards **Campbell-Grant, I** 86
Security in electronic mail **Price, W** 96

NETWORKS

AALAN: advanced automation local area network **Liang, L-S** 195
Architectures for integrated service networks **Suda, T and Yemini, Y** 3
Design of integrated data/voice stations for a CSMA/CD LAN **Teo, E H, Mui, P and Georganas, N D** 287
Fast packet approach to integrated broadband networks **Gonet, P** 292
Integrating voice and data on SALAN: an experimental local area network **Gopalakrishnan, M and Patnaik, L M** 186
Local area network management for distributed applications **Wilbur, S** 100
Methodology for LAN design **Chianese, A and De Santo, M** 177
Multitasking across a LAN for communications switching **Purser, M** 135
Numerical solution to limited service polling models **Hayes, J F and Jalali-Nadushan, A** 171
Reference model for a fast packet-based network **De Prycker, M** 299
Unison project **Clark, P** 126
Communications multiplexers provide emulation 269
Communications package for IBM PCs 46
Data communications using telex lines 47
Digital signal processing peripheral chip 270
Intelligent communications controller 331
Kilostream multiplexer receives BT approval 210
Large span optical fibre link 163
Local area network for handheld computer 43
Mail order catalogue for data communications 165
Micro-to-mainframe communications link 165
Optical fibre mechanical positioner 162
Parallel data communications systems 210
Protocol independent Kilostream/Ethernet link 213
Speech transmission encoder/decoder 213
VLSI-based communications controller 332

Distributed processing

Communications processor for complex networks 211
Distributed communications processor network node 271

Management

Centralized network management system 271
Private network management for PBXs 268

Messaging

Electronic mail and conferencing system 46
Electronic mail service 45
Message system for network PCs 165
Voice/electronic mail service 212
Voice messaging system 45

Networks

Battery back-up software for LANs 270
Concurrent communication for Ethernet networks 210
Connection oriented networking system 211
Dataswitch links LANs and PABXs 271
Eight-user LAN 271
Electronic data interchange network 269
High speed network link 331
LAN analyser package 210
Multiuser baseband bus network 211

Network control matrix switch 46
Network control system 331
Network management from BT 47
Networking facility for voice/data PABX 270
Networking on the mains 332
Packet switching gateway 330
Protocol independent gateway server for Ethernet networks 45
Simplified PC networking software package 44
Software emulation for IBM NETBIOS 166
Swift interface 330
Token-ring LAN adaptor chip set 44
Token-ring network system 331
X.25 link for multiplexer 330

PERFORMANCE

Performance evaluation of an Ethernet network **Poo, G S and Ong, G H** 128
Performance monitor for a LAN **Madan, M S** 282
Performance of multiple-access schemes for data communication **Rahman, M and Ahmed, R E** 241

PRODUCT REVIEW

Applications

Car number plate identification system 165
Japanese newspaper to print in London 162
Local area network licensing scheme 43
Realtime banking system 213

Data collection

Bar code collection LAN 163

Data communications

Communications controller 44

Performance

Ethernet network test tool 164

Peripherals

Ethernet windowing terminal 268
Intelligent modem for PCs 162
Office communications workstation 46
PC-to-mainframe software link 211
Peripheral sharing between PCs 166
VLSI simulation device 212

Security

PC/DOS and MS/DOS data encryption for IBM PCs 43
Public-key encryption chip 330
Security and management system for smaller dial-up networks 47

Telecommunications

Automatic radio paging for network management system 43
Fibre optic channel extender 166
Integrated single channel fibre optic interfaces 164
International banking link 213
Manager's guide to telecoms 268
Multiuser telex gateway 164
Packet switches for smaller applications 212
Packet switching exchange 44
Transportable satellite communications terminal 269
Two satellite earth stations open 332
UK link for travel information database 212
US–European digital satellite communications link 163

Text processing

Text processing service available via electronic mail 166
Word processor package for portable PC 162

PUBLICATIONS

Bell operating companies 38

SECURITY AND PRIVACY

Security in electronic mail **Price W** 96

SOFTWARE

User-friendly communications software for a Unix workstation **Kirby, G H and Visvalingam, M** 9

STANDARDS AND PROTOCOLS

Agreement on OSI conformance testing 152
Coded character sets for text communication 207
Communications network for manufacturing applications 207
CSMA/CD-based protocol with dynamic segmentation **Chua, K C, Lye, K M and Ko, C C** 234
Dealing room protocol converter for bank 40
Design and validation of a transport protocol for local area networks **Teo, E H and Georganas, N D** 115
Drafts for Development 152
DTI support for OSI **Price, S** 74
ECMA standards publications 321
European programme for standardization 151
Evaluation of test equipment for 1553B systems 267
IBM/Canon protocol converter 151
IBM PC integral protocol converter 40
Integrated protocol converter 41
Interlibrary transfer of bibliographic records 207
International financial secretariats reassigned 267
ISO meeting on OSI layers 5, 6 and 7 321
Message Handling Standards **Malde, S** 78
Multiprocessor protocol converter gives async communications 41
OSI user trial completed by DHSS 152
Product supplier view of electronic mail and document standards **Campbell-Grant, I** 86
Protocol analyser for field engineers 41
Protocol converter for ASCII printers 41
Standard proposal for CD-ROM volume and file structure 267

British Standards Institution

BSI publications 152
BSI publications on OSI standards 40, 321
BSI standard on telecommunications apparatus 151
BSI standards on bibliographic database 40

SYSTEMS REVIEW

Central government

E-mail system chosen by CCTA 276

Chemical industry

French chemicals manufacturer orders communications network 323

Defence

Gunfire control systems ordered by Royal Thai Navy 278
Handheld computers for military environments 276
Message switching systems for RAF 219
Military contract 276
Naval communications system 55

Education

Campus communications network 322
College LAN 156
Computer aided learning at universities 219
Computer-based training system 218
LANs installed at UK university 279
Scots technical institute purchases mainframe 220
University education via data network 54
University updates network 52
Unix-based multiuser network in Hounslow Borough College 322
Unix network for Lancashire Polytechnic 157

Finance

Accounting software for motor group 220
Banking data communications network 54
Branch automation for Singapore bank 220
Building society branch automation system 52
Building society data communications system 218
Building society orders terminal system 322
Building society switching system 154
Communications and information network for UK securities industry 54
Continuous processing for City 220
Datacom network for assurance society 52
Inland Revenue office automation scheme 276
Insurance company orders office automation 153
International banking network software 324
Link for automatic cash dispensers 221
Stock Exchange upgrade 277
Viewdata terminals for building society 219

Health

Broadband hospital link 324
Health authority–pharmacy data collection system 323

Libraries

French library ELAN 155

Local government

Local authorities order administration networks 153
Local authority orders office automation LAN 322
London Borough increases processing capacity 323
Microcomputer network for council's housing department 277
Water authority orders development system 222

Management

BT orders network management equipment 156
Computer system for forestry HQ 218
Hotel administration system 276
London–Aberdeen oil network 54
Oil field management system 35
Switching and management system for gas network 154

Media

Electronic newsroom at BBC 325
News transmission network for West Germany 157

Office automation

British Coal orders integrated information processing systems 324
Dedicated office automation system for TV authority 155

Process control

Integrated manufacturing system for lubricant plant 155

Research

Atomic energy authority orders supercomputer 218

Retailing and customer service

ATM network in Saudi Arabia 277
Computer system for mail order and stores group 220
Customer services system for BT 53
EPOS system ordered by UK department store 55
Jewellery EPOS system 325
Norwegian EFTPOS system 155
Sales force bar code data entry system 219
Wool trade PABX 154

Software

Emulation package 277

Telecommunications

Financial telecom package 322
Hong Kong digital telecommunications update 325
ISDN equipment purchased for BT network 221
London/Bristol/Birmingham optical transmission link 53
Monitoring system for exchanges 222
Optical transmission link 55
Private satellite betting system 323
Satellite system for North Sea 52
Scandinavian PTT deals 157
Subscriber carrier systems ordered by BT 53
Telecommunications network for British Virgin Islands 54
Water authority orders telecommunications system 279
West German Temex project 157
Wideband cable system installation in East London 324
X.25 packet switching network 55

Transport

Air traffic control system for CAA 278
Car rental group orders multimicro system 277
Communications and control system for Hong Kong rail project 53
Distributed network for seven UK airports 153
French railway orders booking system 325
Indian airline computer system 156
Yugoslavian railway freight control system 221

TECHNIQUES

Lattice and ring array topologies using transputers **Brookes, G R, Manson, G A and Thompson, J A** 121
Optimal exchange renewal strategies for local telephone networks **Hoang, H H** 15
Strategies for optimal capacity allocations in DAMA satellite communication systems **Wong, K and Georganas, N D** 26

USER FOCUS

Telecommunications network developments **Bray, R** 250
